MUNICIPAL BY-LAWS.

THE CORPORATION OF THE TOWNSHIP OF SPALLUMCHEEN.

TAKE NOTICE that a Court of Revision for the purpose of hearing and dealing with complaints in regard to the assessments set forth in the Schedule attached to the by-law published herewith will sit in the Council Chamber, at the City Hall, in the City of Armstrong, in the Province of British Columbia, on Thursday, the 26th day of July, 1945, between the hours of 10 o'clock in the forenoon and 2 o'clock in the afternoon.

C. H. JENKINSON,
Municipal Clerk.

BY-LAW No.

A By-law to provide for the Deepening of the Deep Creek Drainage System in the Municipality of Spallumcheen, and for borrowing on the Credit of the Municipality the Sum of \$5,350 for completing such Work.

Whereas it is deemed expedient to deepen the Deep Creek Drainage System in the Municipality of Spallumcheen, and to borrow on

the credit of the said municipality the sum of five thousand three hundred and fifty dollars (\$5,350) for completing such work;

And whereas, pursuant to the provisions of section 112 (4) of the "Municipal Act," R.S.B.C. 1936, chapter 199, the Municipal Council of The Corporation of the Township of Spallumcheen procured an examination to be made by D. K. Penfold, District Engineer, Water Rights Branch, being a person competent for such purpose, of the said Deep Creek Drainage System proposed to be deepened, and has also procured plans and estimates of the works to be made by the said D. K. Penfold, and an assessment to be made by him of the lands and roads to be benefited by such deepening of the said Deep Creek Drainage System, stating as nearly as he can the proportion of benefit which, in his opinion, will be derived in consequence of such deepening of the said Deep Creek Drainage System by every lot, or portion of lot, the said assessment so made being the assessment hereinafter by this by-law enacted to be assessed and levied upon the lots and parts of lots hereinafter in that behalf specially set forth and described, and the report of the said D. K. Penfold in respect thereof and of the said deepening of the said Deep Creek Drainage System being as follows:—

"Report on Proposed Drainage of Bottom-lands within The Municipality of Spallumcheen Deep (Otter) Creek."

"Requests having been received regarding the possibility of improved drainage of bottom-lands lying between the City of Armstrong and Otter Lake, an investigation was made during March, 1944. Levels were run to enable the necessary grades and sizes of channel to be computed, which will carry without flooding the highest recorded creek flow—viz., 111 cubic feet per second—which occurred in April, 1936.

"*Estimated Cost.*—The cost of the complete scheme finally adopted, which includes a portion within the City of Armstrong, is estimated at \$9,200. Of this amount \$5,350 has been allocated to the lands benefited which lie within the Municipality of Spallumcheen. These lands are more particularly described in the Schedule which concludes this report.

"*Classification for Assessment Purposes.*—All lands tabulated below are assessed as 'Fully benefited' or 'Partially benefited' which classifications are set at 100 per cent. and 33⅓ per cent. respectively.

"*Work required.*—The channel improvement within the Spallumcheen municipal boundaries will terminate at a point about 1,100 feet from the north end of Otter Lake, which is about 260 feet south of the farm access road running through the Cross Ranch. From this point to the Armstrong City boundary the following grades and channel floor widths have been adopted:—

From.	To.	Length.	Grade.	Floor Width.
1,100'	8,100'	7,000'	1 in 2,000	12
8,100'	10,500'	2,400'	1 in 2,000	13
10,500'	13,040'	2,540'	1 in 1,110	13

"All channel banks should be not steeper than one to one and should be not less than 3½ feet above the graded floor. Any surplus excavated material should be utilized to raise the banks of any feeder-drains sufficiently high to prevent flooding back from the creek during high-water periods.

"*Cattle Watering Places.*—No farm stock should be allowed direct access to the finished channel, and a side cut and access ramp fenced off from the creek bed should be provided in all necessary cases.

“*Farm Bridge Crossings.*—All bridge crossings of this type should not have less than 3-foot clearance above the floor of the new grade.

“*Plans.*—Working plans and sections showing grades and excavation are available in the office of the District Water Engineer, Kelowna.

“*Maintenance and Supervision.*—Regular annual maintenance and supervision of any drainage scheme of this type is vital to its continuous successful operation.”

And whereas the said Municipal Council is of the opinion that the deepening of such stream, creek, watercourse, or drainage system is desirable:

Be it therefore enacted by the said Municipal Council of the said The Corporation of the Township of Spallumcheen, pursuant to the provisions of the “Municipal Act”:—

1. That the said report, plans, and estimates be adopted, and the said deepening of the said Deep Creek Drainage System, and the works connected therewith, be made and constructed in accordance therewith.

2. That the Reeve of the said The Corporation of the Township of Spallumcheen may borrow on the credit of the Corporation of the said township the sum of five thousand three hundred and fifty dollars (\$5,350), being the funds necessary for the work, and may issue debentures of the said Corporation to that amount in sums of not less than fifty dollars (\$50) each, and payable within twenty-one years from the date thereof, with interest at the rate of four per centum (4%) per annum; that is to say—the said principal sum shall become due and payable in manner hereinafter mentioned on the day of , A.D. 1966; and the interest thereon at the rate aforesaid shall become due and payable on the day of in each year; commencing on the day of , A.D. 1945; such debentures and interest to be payable in Canadian dollars, at the Canadian Bank of Commerce, in the City of Armstrong, in the Province of British Columbia, and to have attached to them coupons for the payment of the aforesaid interest: Provided however that the said Municipal Council may, at its option, to be exercised by resolution, on any of the aforesaid dates specified for the payment of interest, call and redeem before maturity any one or more of the

said debentures (to be determined by lot) at par value, by giving to the holder or holders thereof thirty days’ notice in advance of the proposed redemption date (such notice to be by advertisement in one issue of a weekly newspaper circulating in the said municipality, specifying the numbers of the debentures so called), and by depositing in the said Canadian Bank of Commerce, at the City of Armstrong aforesaid, a sum sufficient for the redemption of the debenture or debentures so called, together with accrued interest thereon; and no further interest shall be payable in respect of any debenture or debentures so called.

3. That for the purpose of paying the sum of five thousand three hundred and fifty dollars (\$5,350), being the amount charged against the said lands so to be benefited as aforesaid, other than lands belonging to the said municipality, and to cover interest thereon for twenty-one years at the rate of four per centum (4%) per annum, the following special rates, over and above all other rates, shall be assessed and levied upon the undermentioned lots and parts of lots; and the amount of the said special rates and interest assessed as aforesaid against each lot or part of lot respectively shall be divided into twenty-one equal parts, and one such part shall be assessed and levied as aforesaid in each year, for twenty-one years after the final passing of this by-law during which the said debentures have to run. (*See Schedule at bottom of by-law*).

MUNICIPAL BY-LAWS.

THE CORPORATION OF THE CITY
OF ARMSTRONG.

TAKE NOTICE that a Court of Revision for the purpose of hearing and dealing with complaints in regard to the assessments set forth in the Schedule attached to the by-law published herewith will sit in the Council Chamber, at the City Hall, in the City of Armstrong, in the Province of British Columbia, on Thursday, the 26th day of July, 1945, between the hours of 8 o'clock and 9 o'clock in the evening.

A. J. FIFER,
City Clerk.

BY-LAW No.

A By-law to provide for the Deepening of the Deep Creek Drainage System in the City of Armstrong, and for borrowing on the Credit of the Municipality the Sum of \$3,850 for completing such Work.

Whereas it is deemed expedient to deepen the Deep Creek Drainage System in the City of Armstrong, and to borrow on the credit of the said municipality the sum of three thousand eight hundred and fifty dollars (\$3,850) for completing such work;

And whereas, pursuant to the provisions of section 112 (4) of the "Municipal Act," R.S.B.C. 1936, chapter 199, the Municipal Council of The Corporation of the City of Armstrong procured an examination to be made by D. K. Penfold, District Engineer, Water Rights Branch, being a person competent for such purpose, of the said Deep Creek Drainage System proposed to be deepened, and has also procured plans and estimates of the works to be made by the said D. K. Penfold, and an assessment to be made by him of the lands and roads to be benefited by such deepening of the said Deep Creek Drainage System, stating as nearly as he can the proportion of benefit which, in his opinion, will be derived in consequence of such deepening of the said Deep Creek Drainage System by every lot, or portion of lot, the said assessment so made being the assessment hereinafter by this by-law enacted to be assessed and levied upon the lots and parts of lots hereinafter in that behalf specially set forth and described, and the report of the said D. K. Penfold in respect thereof and of the said deepening of the said Deep Creek Drainage System being as follows:—

"Report on Proposed Drainage of Bottomlands within The City of Armstrong and adjacent to Deep (Otter) Creek.

"Requests having been received regarding the possibility of improved drainage of bottomlands in the vicinity of Armstrong, an investigation was made during March, 1944. A scheme involving the deepening, widening, and general improvement of Deep Creek channel from within the City of Armstrong to a point near Otter Lake was finally adopted.

"Estimated Cost.—The cost of the necessary excavation, etc., for the complete scheme is estimated at \$9,200, of which \$3,850 has been allocated to those lands within the City of Armstrong which are more particularly described on the Schedule which concludes this report.

"Classification for Assessment Purposes.—All lands tabulated below are assessed as 'Fully benefited' or 'Partially benefited,' which classifications are set at 100 per cent. and 33½ per cent respectively.

"Work required.—The part of the work required within the city limits consists of deepening and widening the creek channel from the Otter Lake road bridge to the south boundary

of the municipality, a distance of 4,486 feet. For the upper 3,720 feet the channel floor will be 11 feet wide, with a 13-foot width for the lower 726 feet. Side slopes to be one to one. All banks should be at least 3½ feet above the graded floor, and adjacent land-owners should be encouraged to utilize surplus excavation for raising the banks of local drains to prevent these from overflowing during high-water periods. It cannot be too strongly emphasized that any drainage scheme in this locality requires annual maintenance and supervision. The necessity for the work now proposed is almost entirely due to failure in this respect in past years.

"Farm Bridge Crossings.—All bridge crossings of this type should not have less than 3-foot clearance above the floor of the new grade.

"Otter Lake Road Culverts.—These should both be cleared to within 9 inches of the bottom of the culverts. Any support necessary for the footpath should be lined up with the space between the two culverts to prevent the accumulation of floating trash. The creek channel immediately above should be slightly widened to permit of even flow through both portions.

"Plans.—Working plans and sections showing grades and excavation are available in the office of the District Water Engineer, Kelowna."

And whereas the said Municipal Council is of the opinion that the deepening of such stream, creek, watercourse, or drainage system is desirable:

Be it therefore enacted by the said Municipal Council of the said The Corporation of the City of Armstrong, pursuant to the provisions of the "Municipal Act":—

1. That the said report, plans, and estimates be adopted, and the said deepening of the said Deep Creek Drainage System, and the works connected therewith, be made and constructed in accordance therewith.

3. That for the purpose of paying the sum of three thousand eight hundred and fifty dollars (\$3,850), being the amount charged against the said lands so to be benefited as aforesaid, other than lands belonging to the said municipality, and to cover interest thereon for twenty-one years at the rate of four per centum (4%) per annum, the following special rates, over and above all other rates, shall be assessed and levied upon the undermentioned lots and parts of lots; and the amount of the said special rates and interest assessed as aforesaid against each lot or part of lot respectively shall be divided into twenty-one equal parts, and one such part shall be assessed and levied as aforesaid in each year for twenty-one years after the final passing of this by-law during which the said debentures have to run.
